

The first of these is the fact that the
  $\text{C}_{60}$  molecule is a truncated icosahedron,
 which is a polyhedron with 32 faces,
 12 of which are pentagons and 20 are hexagons.
 This structure is very similar to a soccer ball,
 and it is this structure that gives the
 molecule its unique properties.

The system comprises of an interactive document cluster, a communication and sharing protocol, a plurality of content hubs and a set of user interfaces called knowledge encounter maps.
